

- New Membership
 Renewal

MEMBERSHIP APPLICATION FORM

Membership period is 1 July - 30 June

Cheque/Direct Deposit Payments: Post completed form to **PO Box 7795, GCMC, Qld, 4217**
or email to: info@biobalance.org.au

Credit Card Payment: Online registration: <https://www.biobalance.org.au/members/>

Type of Membership

Governance Members (full voting rights) \$275.00 inc GST

- Medical Member – must have completed recognized Walsh Research Institute training program
 Individual Member – Board approval required. See www.biobalance.org.au for explanation criteria

Ordinary Members (non voting rights)

- Individual \$55.00 inc GST
 Corporate Supporter of BBH \$499.00 inc GST
 Medical Doctor Student FREE
 Research \$55.00 inc GST

Date: / /

Gifts of \$2 or more are allowable deductions to donors under the provisions of Section 30-45, Item 4.1.1 of the ITAA 1997.
Gifts of \$5,000 or more may be spread over 5 years – refer to your Accountant.

BIO BALANCE HEALTH LTD

WHO ARE WE? WHAT DO WE DO? WHY JOIN US?

Who Are We?

BIO BALANCE HEALTH Ltd was established in the late 1990's to train Australian Medical Doctors in the Walsh protocols to treat mental health patients by first balancing their biochemistry. Training is conducted by the Walsh Research Institute and supported by Australian expertise.

To date over 270 doctors have been trained. Bio Balance Health supports research in this area in five Universities.

Our Aims

- Train doctors in the protocol to treat mental health patients by first balancing their biochemistry.
- To support quality precision scientific research into the efficacy of this protocol.
- Recognition of the value of this protocol by broader community and influence health policy towards more support for this skill.
- Establish best practice standards of clinical practice, laboratory testing and therapeutic prescribing.

"The Bio Balance training has educated me about possible biochemical imbalances that frequently occur in people with Mental Health issues. It has given me the tools that help identify these specific biochemical imbalances: the History - by personality traits, symptoms, reactions to medication; Examination and Investigations and specific Pathology tests. It has educated me on how to specifically correct these imbalances using targeted nutrients."

– Doctor Attendee 2017

"This training has transformed the way I treat mental health."

– Doctor Attendee 2017

Working to establish balancing biochemistry as the first line treatment of mental health

What is Bio Chemical Balancing?

Walsh Research Institute defines biotypes of depressions and behavioural disorders based on biochemical imbalances. Each Biotype is treated individually based on the personal history and laboratory results. Walsh also defines biotypes of Schizophrenia which can respond to an individualized biochemical treatment program. Patient's Psychiatric medication is managed concurrently.

Why Join Us?

Doctors who have completed the training join to gain the benefits of membership including ongoing training and confidential online support group, participate in research and benefit from advocacy.

Voting Members influence the direction and standards of the organisation. Without them we cannot grow and improve our training and our services.

Without supporting members we cannot remain viable. Supporters are our energy and our network. They secure our research to ensure the knowledge remains. Supporters keep up to date with knowledge and services, provide support for research and training and promote the success of this protocol.
