

NEW DOCTOR ONLINE PROGRAM

The Bio Balance Health New Doctor Online Program consists of four individual modules requiring assessments to be completed to progress to the next module. A Certificate of Achievement is provided upon completion of all criteria within the program.

Module 1 INTRODUCTION TO TARGETED BIOCHEMICAL THERAPY		
Pre-recorded lectures to enable flexible self-paced learning opportunities for Doctors. Q&A: Submit questions as you progress. Assessments to be completed to progress through the program.		
<i>Objective: Introduction to nutrients and their role in biochemical imbalances commonly associated with mental health.</i>		
<i>Outcome: Knowledge of key nutrients and symptoms associated with mental health and nutrient deficiency</i>		
Lecture 1.1	Introduction and History of Bio Balance Health	Dr Richard Stuckey
Lecture 1.2	Meet the Nutrients	Dr Richard Stuckey Dr Lily Tomas
Lecture 1.3	Nutrient Side Effects and Symptom Detection	Dr Nicole Nelson
Lecture 1.4	Patient Case Study: Mental Health Example	Dr Nicole Nelson
Lecture 1.5	Compounding Best Practice	Chris Testa
Lecture 1.6	12 Month Follow Up Study	Dr Richard Stuckey
Assessment1	Online Assessment	

Module 2 DIFFERENTIATION OF CLINICAL, BIOCHEMICAL AND BIOMARKER PRESENTATIONS		
Pre-recorded lectures to enable flexible self-paced learning opportunities for Doctors. Q&A: Submit questions as you progress. Assessments to be completed to progress through the program.		
<i>Objective: Relating symptom clusters to biochemical testing and measuring the response to treatment.</i>		
<i>Outcome: Key skills for assessment, testing and management of mental health within the clinical setting.</i>		
Lecture 2.1	Biochemistry and Observational Biotypes/Symptom Clusters (includes Dr Walsh Biotypes Lecture 2019)	Dr Walsh
Lecture 2.2	Clinical Presentation: Case Histories of Mental Health Demonstrating a range of clinical presentations.	Dr R Stuckey
Lecture 2.3	Copper/Heavy Metal Toxicity	Dr N Nelson
Assessment 2	Online Assessment

NEW DOCTOR ONLINE PROGRAM

Module 3 PRACTICE SET-UP AND IMPLEMENTATION		
Pre-recorded lectures to enable flexible self-paced learning opportunities for Doctors. Q&A: Submit questions as you progress. Assessments to be completed to progress through the program.		
<i>Objective: Information to set up your practice for BBH patients and minimize medico legal risks.</i>		
<i>Outcome: Expertise to effectively implement the program within your practice at completion of the training.</i>		
Lecture 3.1	Practice Set up & Support Services	Dr Nicole Nelson
Lecture 3.2	Medico Legal	Dr Jane Chapman
Lecture 3.3	Methylation Profile	Dr Richard Stuckey
Lecture 3.4	Nutrient Prescribing	Dr Nicole Nelson
Assessment 3	Online Assessment	

Module 4 <u>LIVESTREAM</u> PATIENT CASE STUDY & Q&A EVENT			
New Doctor Registration includes one livestream event.			
Next Livestream Event: TBA.			
All scheduled sessions are BRISBANE time . Please adjust to your relevant time zone.			
Learners are required to complete Modules 1-3 to participate in the Q&A.			
Due to patient confidentiality, patient assessments will be <u>live streamed</u> , and <u>not available after the scheduled session</u> .			
<i>Objective: Observe patient assessments with a Panel of experienced BBH trained Doctors followed by Q&A session.</i>			
<i>Outcome: Application of clinical evaluation, selection of testing and use of laboratory reports for effective, individualised and targeted treatment programs for patients</i>			
Date - TBA			
	4.1:	Livestream Patient Case Study	Doctor Panel 60 mins
	4.1:	Livestream Patient Case Study	Doctor Panel 60 mins
	4.1:	Livestream Patient Case Study	Doctor Panel 60 mins
	4.2	Q&A Session	Doctor Panel 60 mins
